Core Principles underpinning this course

- Respecting each other and those unseen helpers from the spirit world who will be working with us
 - Maintaining honesty and integrity at all times
- Cultivating the desire to progress spiritually for the purpose of using our abilities in service to others for the higher good
- Cultivating a disciplined approach to development both within the sessions and in-between sessions
- Abstaining from all intoxicating substances before and during sessions
- Refraining from speaking to others about our work until the course is completed, thus retaining the energies generated by each session within our own auric field
- Working always from our heart centre, **in love**

Developing Mediumship - Introduction

Thank you for considering purchasing your course of six, one hourly One 2 One Zoom sessions with me - I am looking forward to working with you to further Develop your Mediumship.

For the next six weeks the aim is to help you unfold your psychic and mediumistic abilities to the point where you will be well on the way to having the confidence to demonstrate to others and work towards doing so publicly. Mediumship is a sacred gift that all of us possess in some degree or other but which has to be brought to the surface of awareness in order to be used for the benefit of others. It's development cannot be rushed and it is essential that a trust can be built between the medium and their guides or spirit team. This is where I will help you and point you in the right direction. As a platform medium for over 50 years, I have demonstrated extensively throughout on the UK and also Internationally as well as at the world famous Arthur Findlay College and I am recognised for my evidential mediumship.

Although I have suggested some relevant topics for discussion, you may wish to change these or add your own as we progress, such is the fluid nature of the sessions. A huge advantage to our work is that not only will your ability as a medium advance, but also you'll be encouraged to think for yourself and connect to the invisible information fields in which all is known. As your own vibrational energy expands and your power increases, so you will gain access to higher dimensions of knowledge and be able to penetrate into the subtle planes of being. In short, your consciousness will expand as you approach more enlightened states. This crucial point is one that is sometimes overlooked or forgotten by those whose only interest is in obtaining evidential messages for 'entertaining' the public.

So please read through this brief guide and familiarise yourself with the nature and content of what we'll be discussing. You may also wish to make your own notes for anything that you'd like to focus on or know more about during the sessions. Although there are again, certain essential aspects that I believe have to be covered, there is also room for some flexibility and I would emphasise that because we are undertaking One 2 One sessions, the course is very much tailored to you. You will not only be able to ask questions and make your own suggestions during online sessions but in addition, also email me if you require more help.

So lets get started and enjoy working in the energy of the spirit in even more depth.

Kind regards,

Robert

Advisory Notes to the online sessions

Robert Goodwin

As the author of this course, I strongly recommend following the procedures as closely as possible without attempting to skip any sections or jump ahead in the belief that it will save time. Each session has been carefully designed to help the aspirant to unfold their mediumship in a safe and proper way and should be followed exactly as directed.

I have deliberately kept the intellectual content of this course to a minimum because I believe that mediumship can never be an academic subject. No one can actually teach another to become a medium and no amount of study will ever produce mediumistic ability if it does not already lie within the individual. This course and sessions, like mediumship itself are *always 'a work in progress' and no results can ever be guaranteed.*

In short, there is no substitute for 'hands on' development or sitting in a well run, closed development circle. Whilst it is possible to develop alone, I do not recommend this in the long term.. There is nothing as helpful as the support of other sitters and the strength of the group environment and I would encourage every dedicated, aspiring medium to find such a group. My own initial development took place in such a closed circle over several years and it was time well spent. I would also suggest that the following books are considered as aids to this course, all of which are available from Amazon in electronic format:

Truth from the White Brotherhood - Robert Goodwin

The Golden Thread - Robert Goodwin

Answers for an Enquiring Mind - Robert Goodwin & Amanda Terrado

In the presence of White Feather - Robert & Amanda Goodwin

The Collected Wisdom of White Feather - Robert & Amanda Goodwin

The Enlightened Soul - Robert & Amanda Goodwin

The Infinite Stream - Robert Goodwin

Transcognitive Spirituality - Robert Goodwin

Light: The Divine Intelligence - Robert Goodwin
